

Coverings'16

The Global Tile and Stone Experience

Coverings is the premier international trade fair and expo dedicated exclusively to showcasing the newest in ceramic tile and natural stone. It has grown to be the largest and most important show of its kind in the U.S., featuring exhibitors from more than 40 countries. This year Coverings 2016 took place in Chicago, from April 14th through April 16th. All who attended know that Coverings is a venue to bring the world of tile and stone, to you. It also invests the proceeds from the show into advocacy, standards, education and promotion for the industry.

The Tile Council of North America (TCNA) had a very big presence in Chicago this year. As a foremost advocate for developing standards for tile and stone products, TCNA is the secretariat for the ANSI Accredited Standards Committee (ASC) A 108. TCNA is currently involved in slip testing research using the BOT-3000E. This research is not only innovative, but directed toward reducing the potential for a slip and fall on all hard walkway surfaces.

* Coverings 2017 - Look for a Booth featuring the BOT-3000E and information regarding slip testing in the ceramic tile and natural stone industry.
